BRYTEWAVE K-12 App: Kindle Fire HD 2\textsuperscript{nd} Generation or Higher

If you are unable to locate a BryteWave K-12 app in the Kindle store, try this App instead.

Follett is currently working with Kindle support to ensure the BryteWave K-12 app is being properly recognized. Until BryteWave K12 application becomes available in the Amazon App store, follow these instructions for installation:

1. Open this attachment on your Kindle Fire HD
2. On the “Attachment Info” message that comes up, select “Settings”
3. Change the first options “Apps from Unknown Sources” from “off” to “on”. Click OK to the warning.
4. Go back and open the attachment again.
5. Select “install”

The app is now installed on the Kindle.

If you like, you can follow the steps below to turn off allowing new apps from unknown sources:

1. Go to Apps
2. Select Settings app
3. Choose “Applications” menu
4. Change the first option, “Apps from Unknown Sources: from “on” to “off”
